

Name	MINIMALE PAR/MINIMAL PAIRS
Purpose:	Examine and train children's skills to discriminate between rhythms that differ only in meaningful sound
Short description:	Minimal pairs are word pairs that are identical except for one of the phonemes in the words, such as pin and bin. The word pairs have been prepared for language audio work with children with phonological difficulties, and are used in connection with the Norwegian phoneme test
Academic area/skills:	Phonological discrimination and awareness
Target group:	Children, adolescents and adults
Survey method:	Individual
Standardization:	No
Adapted/non-adapted to Norwegian conditions:	Norwegian edition
Published:	2002
Author:	Heidi Tinglett
User groups/user qualifications:	No qualification requirements
