1. is made by the undersigned, if the work is done by a group of students, all involved are considered responsible
2. has never been submitted before directly or indirectly in relation to the same or similar/another examination at the department/university/University College in Norway or abroad.
3. is not a copy or duplicate of another person's work or examination, or reproduction of earlier work done by the undersigned without citing the sources.
4. has cited all relevant literature which has been made use of in the bibliography

I am aware that any offense towards the regulations mentioned in this document is considered as fraudulent by the University authorities.

Any offense regarding these regulations will be treated as suspicion of academic misconduct during the examination. The department and faculty are free to investigate the case, and if necessary take legal action by forwarding the case to the University Appeals Committee. The University Appeals Committee determines possible sanctions e.g. annulment of the examination in question or annulment of the examination as well as barring the student's access to institutions of higher education in Norway. More information on the Regulations regarding attempted examination offences can be found in Norwegian at [the University's web pages](#).

Every student at the University of Oslo is under an obligation to be aware of and understand these regulations.
